theory applies in practice out on the field, while many of the practitioners come from diverse backgrounds, with little or no contact of the theory (and practical implications) of development economics.

[Development theory | economics and political science ...](#)

Most development theory equates development with national economic growth and sees the state as its primary agent; consequently, one of its central concerns is to understand and explain the role of the state in development and the nature of government-market relations. Because these explanations relate development outcomes to the extent and form of the state's role in development, there is a
