China's war against air pollution is part of a broader reckoning with the health and environmental catastrophe wrought by rapid industrialization over the past few decades. The economic rise has

[China's Environmental Crisis | Council on Foreign Relations](#)

China, once reluctant to take a stand on environmental issues and climate change, emerged as a leader in negotiations at the 2015 UN Climate Conference in Paris where 195 countries signed a

[Chinese Environmental Issues: Is There a Way Out? | New ...](#)

China, however, was not eager to make ecological issues one of its priorities, and, as it is clear now, the agreement did not bring about any tangible results. The most noteworthy is the cooperation in the field of environmental protection between China and Japan. As is known, for a few decades Japan through its Overseas Economic Cooperation Fund extended more loans on favorable terms to China than any other country within the framework of official development assistance. A substantial part
