Health Care Benchmarking and Performance
Evaluation - An ...

HEALTH CARE BENCHMARKING AND
PERFORMANCE EVALUATION applies the analytical
framework of Data Envelopment Analysis methodology to
provide health care administrators with specific
benchmarking tools for performance evaluation. Most
importantly, the book provides health care practitioners
and administrators with information of what is lacking in
specific aspects of performance and then outlines
Health Care Benchmarking and Performance
Evaluation: An ...

This new edition continues to emphasize the use of data
envelopment analysis (DEA) to create optimization-based
benchmarks within hospitals, physician group practices,
health maintenance organizations, nursing homes and
other health care delivery organizations.

Analysis in Brief - Benchmarking Canada's Health System ...

Benchmarking Canada's Health System: International Comparisons Executive Summary There is increasing interest in comparing Canada's health system internationally. Enhancing accountability and promoting benchmarking and mutual learning are among the reasons for looking at how health system performance varies across countries. Although there are methodological challenges in terms of having

Benchmarking: A Method for Continuous Quality Improvement ...

Benchmarking, a management approach for implementing best practices at best cost, is a recent concept in the healthcare system. The objectives of this paper are to better understand the concept and its evolution in the healthcare sector, to propose an operational definition, and to describe some

Benchmarking in mental health services - Information paper

development of the national mental health performance framework and support benchmarking for mental health services. The Subcommittee will act as the steering committee for the project.

Module 7. Measuring and Benchmarking Clinical Performance ...

Benchmarking is the process of comparing a practice's performance with an external standard. Benchmarking is an important tool that facilitators can use to motivate a practice to engage in improvement work and to help members of a practice understand where their performance falls in comparison to others.
