[Health Policy - Journal - Elsevier](#)

Health Policy is intended to be a vehicle for the exploration and discussion of health policy and health system issues and is aimed in particular at enhancing communication between health policy and system researchers, legislators, decision-makers and professionals concerned with developing, implementing, and analysing health policy, health systems and health care reforms, primarily in high

[The Importance Of Healthcare Policy And Procedures](#)

The purpose of healthcare policy and procedures is to communicate to employees the desired outcomes of the organization. They help employees understand their roles and responsibilities within the organization. In the healthcare environment specifically, policy should set the foundation for the delivery of safe and cost effective quality care.

[Health policy - Wikipedia](#)

There are many categories of health policies, including global health policy, public health policy, mental health policy, health care services policy, insurance policy, personal healthcare policy, pharmaceutical policy, and

policies related to public health such as vaccination policy, tobacco control policy or breastfeeding promotion policy.

WHO | Health policy

Health policy refers to decisions, plans, and actions that are undertaken to achieve specific health care goals within a society. An explicit health policy can achieve several things: it defines a vision for the future which in turn helps to establish targets and points of reference for the short and medium term.
