Food photography is on the rise, with the millions of food bloggers around the world as well as foodies who document their meals or small business owners who are interested in cutting costs by styling and photographing their own menu items, and this book should serve as your first course in food photography. Discover how the food stylist exercises unique techniques to make the food look
[Digital Food Photography by Lou Manna - Goodreads](#)
A great book on the photography of food, it was interesting to read about how food is made to look so good in advertisements. Beyond just the food photography, I found the book interesting in how it explained ways to best take photos, tips on photography, and giving a different perspective on shooting photographs.
