[The Heterogeneous Programming Jungle - HPCwire](#)

The Heterogeneous Programming Jungle By Michael Wolfe, March 19, 2012. There s a lot of talk now about heterogeneous computing, but here I want to focus on heterogeneous programming. There are several, perhaps many, approaches being developed to program heterogeneous systems, but I would argue that none of them have proven that they successfully address the real goal. This article will

Heterogeneous computing - Wikipedia

Heterogeneous computing systems present new challenges not found in typical homogeneous systems. The presence of multiple processing elements raises all of the issues involved with homogeneous parallel processing systems,

while the level of heterogeneity in the system can introduce non-uniformity in system development, programming practices, and overall system capability.
