The purpose of the 15th International Conference on Web Information Systems and Technologies (WEBIST) is to bring together researchers, engineers and practitioners interested in the technological advances and business applications of web-based information systems.

**Chapter 1: What Is an Information System?**

**Information ...**

Information systems hardware is the part of an information system you can touch the physical components of the technology. Computers, keyboards, disk drives, iPads, and flash drives are all examples of information systems hardware. We will spend some time going over these components and how they all work together in chapter 2.
